Electrical Engineering | Final Year College Student

I am a final semester student majoring in electrical engineering at the Del Institute of Technology. I am interested in learning programming that can be applied to a Basic Software Engineer. I learned about the JavaScript and Python programming languages. I am always motivated to develop myself into a professional person. I have a high desire to learn new things to develop myself. I have responsibility for what I do, and can work in a team.

EXPERIENCE

06/2022

JavaScript with API

Digital Talent Scholarship X Progate

Fulltime Students

- Learn JavaScript DOM and how to debug.
- Learn to make a website using HTML, CSS, JavaScript and open API.
- Learn the version control system that is Git, with some basic commands such as Git Init, Git Push, Git Status.

Technologies used:

HTML CSS JS API GIT GITHUB

04/2022

Basic Web Programming

Camp404

Fulltime Students

- Learn Basic HTML
- Learn Basic Cascading Style Sheets
- Learn PHP and MySQL For Beginners
- Learning Javascript Fundamentals

Technologies used:

HTML CSS JS

06/2021 – 07/2021

IoT Monitoring System Transmission Room PT. Telkom Pematangsiantar

PT. Telkom Pematangsiantar

Internship

- Make a web-based IoT monitoring system design in the transmission room.
- Using HTML, CSS in creating web pages that display temperature change graphs and understanding SQL in its integration into the database

Technologies used:

HTML CSS BOOTSTRAP4 IOT PHP ARDUINO IDE

EDUCATION & TRAININGS

Electrical Engineering Bachelor

since 2018 at Del Institute Technology | GPA : 3.27/4.00

DEGREE

JavaScript with API

2022 by Digital Talent Scholarship

TRAINING

Basic Web Programming Bootcamp

2022 by CAMP404

TRAINING

Progate Certification

2022 | Kursus Command Line

2022 | Kursus Git

2022 | Kursus JavaScript

COURSE

BARATA MENGAJAR

2021 by PT. Barata Indonesia (Persero)

TRAINING

SKILLS & TOOLS

HTML, CSS

JavaScript, Python, API, C

ACHIEVEMENT & PROJECTS

IoT Monitoring System Transmission Room PT. Telkom Pematangsiantar

Website and Telegram User Interface

JavaScript with API

Digital Talent Scholarship X Progate

Covid-19 simulation with Python3

Simulated infection covid-19 mutation

Sistem Monitoring Parameter Air Sungai Menggunakan Multisensor

Final Project

ORGANIZATION & VOLUNTEERING

Division of Communication and Information Electrical Student Association

2020-2021 | Head of Division

Cadreization of the Electrical Student Association

2020 | Chairman of the Cadre Committee

Division of Communication and Information Electrical Student Association

2019-2020 | Member of Division

Outbound and Leadership Training of the Electrical Student Association

2019 | Head of Outbound and Leadership Training

LANGUAGES

Indonesia
